

# Hi, we're **GoTo**

You have a lot on your plate; whether it's managing tools, people or technologies, there's so much to do. So, we created communication, collaboration and IT support tools that make it easy for you to do your best work, anytime, anywhere. Because we believe time at work should be well-spent, and time beyond work should be better spent.

## We make IT easy, anywhere with:

**Flexible-work software** connect and support your employees and customers from anywhere, any way, on any device.

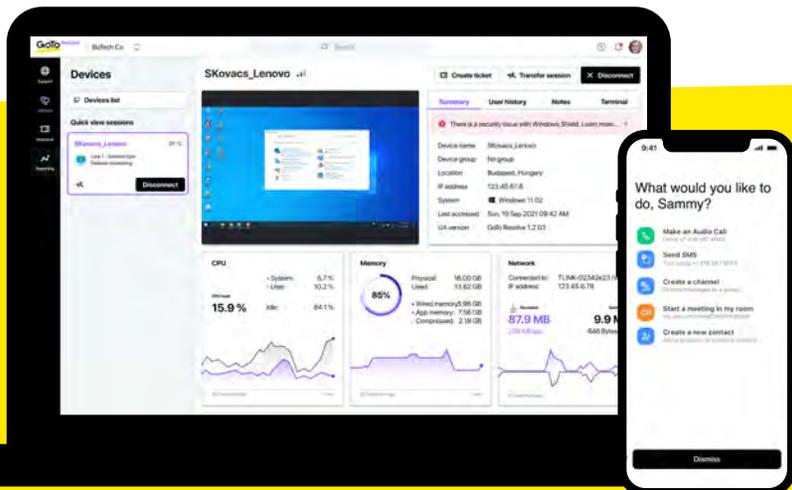

**A single app at a simple price** tools powerful enough for the enterprise yet built to deliver value to SMBs. Easy to use, deploy, and buy.

**Secure foundations built on trust** 99.99% up-time, 24/7 dedicated support, zero trust security.

**Ecosystem-invested** integration partners like Slack and Microsoft, and a global channel partner network.

**Since 2003 we've delivered market leading solutions to help teams get up, running and working.**

# Meet your new GoTo.

Simple. Secure. Flexible.

## GoTo **Connect**

All-in-one communications software built for businesses with a flexible approach to work.

### Phone

Welcome to the enterprise-grade phone system with 100+ features.

### Meeting

Meet and collaborate with up to 250 people at once.

### Webinar

Automate webinar and virtual event management with a scalable and flexible platform.

### Training

Drive engagement with registration management, in-session tools and on-demand features.

### Contact Center

Improve customer satisfaction and boost sales with a feature-rich contact center solution.

**1B+**  
people joining meetings, classes, and webinars
