

iland Secure Cloud Backup for Office 365 with Veeam

Your Office 365 emails and documents are safe and protected with iland Secure Cloud Backup.

The Microsoft Office 365 platform is increasingly leveraged for everything from email to document collaboration and more. Worrying about securing this critically important data is more than enough to keep you up at night.

Now you can relax with iland Secure Cloud BackupSM for Office 365 with Veeam. It directly integrates with Office 365 to provide flexibility in how you protect your Exchange Online, SharePoint Online and OneDrive data.

Enhance your protection

With Microsoft Office 365, protection is a shared responsibility. Microsoft supports application and infrastructure uptime—but the data control and protection is your responsibility.

Choose an industry leader

iland is a global leader with a complete cloud services portfolio of Backup, DRaaS, and IaaS. Our stringent compliance and security posture includes GDPR, HIPAA, SOC2, ISO 27001, FISMA-MODERATE, and Privacy Shield certifications, as well as Cloud Security Alliance STAR Gold Certification.

Pre-built 100 percent SLA infrastructure with expert customer support and onboarding included free of charge makes the choice a simple one.

Global footprint

You'll have data sovereignty and geographic redundancy with global data center locations across the Americas, Europe, Australia, and Asia.

Recover rapidly

You can quickly restore your mailbox items directly to your Office 365 mailbox by exporting them to a PST file, emailing them as an attachment, or save them locally.
